

OUTREACH

a-leaf @WissensDurst 2017

May 15-17th

Our distinguished partner, Prof. Dr. Ulrike Diebold, participated in [Das Festival der österreichischen Wissenschaft](#). This outreach lecture series runs through different cities in Austria, bringing people to bars and pubs to directly chat with scientists. The Festival visited Wien this past May (<http://www.wissensdurst-festival.at/wd2017vie>). As part of this great initiative, Prof. Diebold talked about "Von Atomen bis zu Galaxien" ("From atoms to Galaxies") along Prof. Dr. [Caslav Brukner](#), to a thirsty audience for science, and more!
